## About me

Hello, my name is Guilherme, and I am a passionate Front-end developer based in Portugal. I hold a degree in programming and am always looking for new opportunities to expand my knowledge and skills.

Over the course of my professional journey, I have honed my expertise in Front-end development, demonstrating proficiency in crafting web applications through the utilization of languages such as HTML, CSS, JSON, and JavaScript. Additionally, I have adeptly employed frameworks such as ReactJS and Flutter to enhance the efficiency and functionality of projects. Furthermore, I have employed JSON for the seamless implementation of REST APIs..

My passion for programming goes beyond just writing code. I strive to develop solutions that not only meet but exceed client expectations. I enjoy working collaboratively in teams, as I believe it enhances creativity and allows for a more efficient and productive workflow.

## Work experience

**Software developer**
**at Grupo AFA**                                                09/2022 - present

- Development of a mobile application for managing maintenance and housekeeping requests in hotel arrangements. The application was developed using Flutter, which is a mobile app development framework that supports both iOS and Android. Additionally, the API for the app was developed using Django REST framework

- Building a helpdesk platform. Flask was used for developing the APIs, ReactJS for web development, and Figma for design. The platform served as a central hub for managing customer inquiries and requests, and streamlined customer support operations.

**Software developer**
**at Savoy Signature**                                          03/2021 - 09/2022

- Developed a Collaborators Portal for Android and iOS using the Flutter framework, facilitating streamlined access to group protocols and benefits for all employees.

- Development of Python scripts for process automation.

## Education

Higher course in information systems technologies and programming       10/2019 - 03/2021
**at University of Madeira**

Professional course in management informatics                           09/2016 - 06/2019
**at Francisco Franco high school**
